PROFESSIONAL SUMMARY

Highly Passionate and disciplined 19-year-old Full stack developer & UI/UX Designer from Baghdad, Iraq, with a strong foundation in front-end and back-end technologies. A high school graduate. My beginning in this field was in July 2021 and now at the end of 2023 I'm proudly identified as a self taught Full-stack developer possessing a diverse skill set that includes MERN stack, Next.js, Linux , and more. Committed to continuous learning, I have successfully completed multiple projects that I learned so many things from them showing my adaptability, problem-solving skills, and deep understanding. Fluent in English, Arabic, and Chinese, offering a unique multicultural perspective.

PROJECTS

Full Stack Social Media Web App

November 10 2022 - January 25 2023

I created this Wep-App using the MERN stack. Over a span of 2.5 months, I designed and implemented a documented and a feature-rich application, demonstrating not only my technical proficiency but also my commitment to delivering a polished product. This project involved the intricacies of user authentication, real-time updates, screen responsive, and intuitive user interface. This project was a journey of rigorous problem-solving, clean code practices and an unwavering dedication to quality. If you are interested in a detailed exploration, I invite you to explore it in my personal portfolio ibrahimali.xyz or through this link .

Full Stack Messages X

August 15 2023 - October 15 2023

I developed a Real-time Messages & Call-sharing Web-App using Socket.io, Express.js, and Next.js. Completed in less than two months, this project showcased my ability to leverage cutting-edge technologies to create dynamic, responsive, and interactive user experiences. The features encompassed full authentication system, real-time messaging, live call-sharing capabilities, and a streamlined user interface. You can also find it in my personal portfolio or directly through this link.

Other Frontend Websites

I have developed over seven learning-oriented frontend websites, available on my GitHub profile page, which I have not yet hosted.

CAREER OBJECTIVE

Seeking a junior full-stack developer position to leverage my technical expertise, problem-solving skills, and adaptable nature in contributing to innovative projects. Enthusiastic about continuous learning and growth within a collaborative and dynamic professional environment.
